JUNE 2024 RELEASE	4
2024-2025 SCHOOL YEAR RELEASE	5
RECENTLY RESOLVED ISSUES	9

NEW ISSUES

COMPONENT	IMPACT	ISSUE	REPORTED DATE	RELEASE DATE
ECDS	Data Promotion	The ECDS PK promotion of the Student > Enrollment (School Association) subcategory is failing in the parallel environment.	05/17/24	MAY 2024
ECDS	ECD0-000-002 Early Childhood Assessment Summary	The ECDS KG report ECD0-000-002 is not successfully running in the parallel environment. After initiating the report, the status stays 'In Progress' and does not complete.	05/07/24	JUNE 2024
PEIMS	PDM3-130-014 Flex Attendance - Superintendent's Summary Report of Student Attendance PDM3-131-012 Roster of Students Generating Flexible Attendance Data	The PEIMS Summer reports PDM3-130-014 and PDM3-131-012 are not successfully running in the parallel environment. After initiating the reports, the status stays 'In Progress' and does not complete.	04/29/24	JUNE 2024
PEIMS	Data Promotion	When a student is reported in the Student entity with an AsOfStatusLastFridayOctober (E3007) equal to 'X', the Student Basic Information subcategory data is not promoted to the PEIMS Fall data mart. TEA will update the PEIMS Fall promotion logic to promote students with an AsOfStatusLastFridayOctober equal to 'X'.	05/21/24	JUNE 2024
RF Tracker	Data Promotion	When a student is reported in the StudentSpecialEducationProgramAssociation.StudentResidentialFacilityAsociation.StudentResFacAssocSet with an AttendanceZoneCampus (E1633) containing leading zero values, the leading zeros are not promoted to the RF Tracker data mart. This is causing rule 40115-0004 to fire incorrectly. TEA will update the RF Tracker promotion logic to promote the leading zeros in this scenario.	05/16/24	JUNE 2024
DMC	Load Summary Report	When expanding and collapsing sections on the Load Summary Report, the view may display the incorrect count for the Domains value. Workaround: Users can reload the page to display the correct count for Domains.	05/06/24	2024-2025 SCHOOL YEAR

RF Tracker	Data Promotion	<p>When a student is reported in the StudentSpecialEducationProgramAssociation.SpecialEducationProgramService entity with a SpecialEducationProgramService (E3058) equal to '22' (Receiving Instructional Services from RDSPD), a value of '1' is promoting to the RF Tracker data mart instead of a value of '3'. As a result, on the RFT0-100-004 Student Details Report, the student will show that they are not receiving RDSPD services.</p> <p>TEA will update the RF Tracker promotion logic to promote a value of '3' in this scenario.</p>	05/08/24	2024-2025 SCHOOL YEAR
------------	----------------	---	----------	-----------------------------

JUNE 2024 RELEASE

COMPONENT	IMPACT	ISSUE	REPORTED DATE
Class Roster	CLS2-100-003 Staff Class Assignment Report	The Class Roster Winter report CLS2-100-003 is not running successfully. Users receive a report status of 'Failed' when they run the report.	03/08/24
DMC	Level 1.5 Filters	<p>'Descriptor Value' filter results are being triggered for Landing Zone only data elements, such as Term and Achievement Category. These data elements do not have any TSDS reportable values and cannot be corrected with a descriptor mapping. LEAs should ignore these Level 1.5 filter results until a software release resolves the issue. The data is flowing to TSDS correctly despite what the message on the filter result states.</p> <p>Workaround: LEAs can use the 'Verified' flag to hide these filter results.</p>	02/01/24
ECDS	ECDO-000-002 Early Childhood Assessment Summary	An issue has been identified on the ESC version of the ECDO-000-002 report that may cause the report to display incomplete data or no data at all.	03/13/24

2024-2025 SCHOOL YEAR RELEASE

COMPONENT	IMPACT	ISSUE	REPORTED DATE
API/MetaEd	Data Reporting	<p>The data element ProgramType (E1337) must be reported when reporting students with a ParentalPermission (E0896), including the descriptor value 'C' (Parent or Guardian Denied Placement of an EB/EL in any Special Lang Program). Currently, the ProgramType descriptor table does not contain a program for parent denial. TEA will evaluate the table for possible changes to the 2024-2025 TEDS to resolve the issue.</p> <p>Workaround: TEA does not promote the value for ProgramType to any PEIMS or Core submission so LEAs may report any value for students being reported with a ParentalPermission of 'C'.</p>	11/09/23
API/MetaEd	Data Reporting	<p>The InstructionalSettingSets common type does not allow for multiple instructional settings to be reported with the same InstructionalSettingBeginDate (E3025). When data is reported with the same InstructionalSettingBeginDate, a Level 1 error is triggered.</p> <p>TEA is evaluating the data standards to determine what changes will need to be made to allow for multiple instructional settings to be reported with the same begin date.</p> <p>Workaround: The LEA should load only one InstructionalSettingSet. A student who receives speech therapy services and who also receives instructional services through another InstructionalSetting (E0173) should be reported with the primary setting (not with 00) and a SpecialEducationProgramService (E3058) 25 (Student Receives Speech Therapy Along With Service Through Another Special Education Instructional Setting).</p>	11/10/23
API/MetaEd	Data Reporting	<p>The StaffServiceSets common type does not allow for multiple staff services to be reported with the same StaffService (E3072) descriptor value and StaffServiceBeginDate (E3060). When data is reported with the same StaffService and StaffServiceBeginDate, a Level 1 error is triggered. This may impact special education aides who provide the same service for multiple grade levels.</p> <p>TEA is evaluating the data standards to determine what changes will need to be made to allow for multiple staff service sets to be reported with the same StaffService and StaffServiceBeginDate values.</p> <p>Workaround: For the parallel year, LEAs should either only provide one StaffServiceSet for the instructional aide or provide a different StaffServiceBeginDate for the same StaffService to avoid errors.</p>	11/17/23

Class Roster	<p>CLS1-100-006 Fall Submission Summary Report</p> <p>CLS2-100-003 Winter Staff Class Assignment Report</p> <p>CLS2-100-006 Winter Submission Summary Report</p>	<p>When these reports are run for the first time a status of 'undefined' is displayed. Once the refresh button is clicked, the status appropriately displays 'in progress'. This issue does not impact the generation of the report.</p> <p>Workaround: LEAs can click the 'refresh' button to display the correct status.</p>	05/26/23
DMC	L1.5 Filters - Unique ID Staff/Student	<p>If the FirstName (E0703), MiddleName (E0704), or LastName (E0705) value for a staff or student exceeds 60 characters, it may cause an invalid L1.5 Filter.</p> <p>TEA will be updating the eScholar Unique ID application to allow the FirstName, MiddleName, and LastName data elements to be up to 75 characters, which will match the Ed-Fi standard.</p>	07/31/23
IODS	Pre-Populated Data	<p>Administrative campuses are not included in the campus data that TEA is pre-populating in each LEA's IODS. This can cause errors when reporting non-instructional staff at an administrative campus. TEA is continuing to evaluate this issue to determine the long-term solution.</p> <p>Workaround: Vendors are able to publish these additional campus records to the Schools resource. A GradeLevel (E0017) must be supplied when reporting a campus. Any value can be reported for an administrative campus since the GradeLevel is not promoted to the PEIMS and Core data marts for these campuses.</p>	10/13/23
PEIMS	40100-0095	<p>Rule 40100-0095 is firing when data element UnaccompaniedYouth (E1084) is not reported for a Prior Year Leaver who is reported with a value for the HomelessStatus (E1082) data element. Prior Year Leavers do not report any data regarding UnaccompaniedYouth status.</p> <p>LEAs can disregard this validation in the parallel PEIMS Fall and Summer Submissions. TEA will be updating the rule for 2024-2025 to no longer apply to Prior Year Leavers.</p>	01/31/24

PEIMS	40100-0156	<p>In the Upgrade TEDS 2024.2.1 publication, descriptor value '0' was removed from the C122 TitlePartAParticipant descriptor table. As such, TEA is no longer expecting StudentTitlePartAProgramAssociation for every enrolled student.</p> <p>However, TEA did not remove fatal validation rule 40100-0156, which requires StudentTitlePartAProgramAssociation data for all students with an AsOfStatusLastFridayOctober (E3007) equal to 'B', 'D', 'F', or 'X', from the TSDS Upgrade PEIMS environment.</p> <p>TEA has downgraded this rule in the PEIMS parallel environment from a fatal to a special warning. LEAs can ignore this validation in the parallel PEIMS Fall submission. TEA will be updating the 2025 data standards to remove this validation rule.</p>	01/09/24
PEIMS	41461-0013	<p>Rule 41461-0013 is firing for Prior Year Leavers because those students will not be reported with a value of 'B', 'D', 'F', or 'X' for the AsOfStatusLastFridayOctober (E3007) data element.</p> <p>LEAs can disregard this validation error in the parallel PEIMS Fall submission. TEA will be removing this validation rule for 2024-2025 school year.</p>	01/25/24
PEIMS	Data Promotion	<p>If a student has multiple Language (E3033) values for either the 'Home Language' or 'Student Language' Language Use (E3035) in their IODS, the system will only promote one Language value each Language Use.</p> <p>After promoting data to PEIMS, LEAs should utilize the Data Search functionality to verify the correct home language and student language values promoted for their students.</p> <p>TEA is evaluating the issue to determine what changes will need to be made to ensure the correct language values are promoted for the home language and student language.</p>	12/28/23
PEIMS	Data Promotion	<p>When a student is reported in the PriorYearLeaver entity with an ExitWithdrawType (E1001) not equal to '01' (Graduate), and IndividualGraduationCommitteeGraduateIndicator (E1562) is not equal to 'true' the data element is promoted to PEIMS with a value of '00'. The result is causing rule 40203-0005 to fire.</p> <p>TEA will update the PEIMS promotion logic to not promote a value when IndividualGraduationCommitteeGraduateIndicator is not equal to 'true'.</p>	01/24/24

PEIMS	Data Promotion	<p>When a student is reported in the PriorYearLeaver entity with an ExitWithdrawType (E1001) not equal to '01' (Graduate) and FHSPDistingLevelGraduate (E1542) is not equal to 'true' the data element is promoted to PEIMS with a value of '0'. The result is causing rule 40203-0012 to fire.</p> <p>TEA will update the PEIMS promotion logic to not promote a value when FHSPDistingLevelGraduate is not 'true'.</p>	01/24/24
PEIMS	Data Promotion	<p>When a student's data is published to the IODS with no value for the EndorsementCompleted (E3021) data element, the PEIMS Fall promotion logic will promote the value with a '0' to the PEIMS data mart. This is causing validation rule 48011-0028 to misfire when a student's DiplomaType (E0806) is not a value of '34', '35', '40', '54', '55', '56' or '57'.</p> <p>TEA will be updating the PEIMS Fall promotion logic to no longer default a value of '0' when the EndorsementCompleted is not supplied in the IODS. LEAs can ignore this validation rule in this scenario for the remainder of the parallel submission year.</p>	02/06/24
SPPI-14	SPP0-000-002 TSDS SPPI-14 Expected Student Counts Report	<p>The SPP0-000-002 report is running longer than expected. Please note that the report will process but it may take a few hours to complete. TEA will be improving the performance of this report for the 2024-2025 school year.</p> <p>Reminder: This report is only available at the ESC-level. The student counts on the report should match the number of students that promote to the SPPI-14 data mart. LEAs are encouraged to promote their SPPI-14 data to ensure accurate submission data in the parallel environment.</p>	02/09/24

RECENTLY RESOLVED ISSUES

The following issues have been resolved since the last publication of this document.

COMPONENT	IMPACT	ISSUE	RESOLUTION DATE
API/MetaEd	Data Reporting	<p>In the StudentSpecialEducationProgramAssociation.LanguageAcquisition common type, data elements FrequencyOfServices (E1663) and HoursSpentReceivingServices (E1664) are required. These two data elements are reported alongside LangAcqServicesProvided (E1662). When descriptor value '00' (Services not Provided) is reported for LangAcqServicesProvided, there is no corresponding value to report for either FrequencyOfServices or HoursSpentReceivingServices.</p> <p>TEA will be updating FrequencyOfServices and HoursSpentReceivingServices to be optional so they can be omitted when LangAcqServicesProvided is reported as '00'. Business validation rules 41163-0055 and 41163-0056 will fire when these two data elements are omitted and a value other than '00' is reported for LangAcqServicesProvided.</p>	04/19/24
API/MetaEd	Data Reporting	<p>Data element AttendanceZoneCampus (E1633) is currently part of the key for the StudentResidentialFacilityAssociation.StudentResFacAssocSet common type.</p> <p>TEA will be updating the key for this common type to only be data element StudentResFacAssocSetBeginDate (E3064).</p>	04/19/24
API/MetaEd	Data Reporting	<p>The ReportingPeriodExt (TX) does not allow multiple CalendarDate references to be reported for each ReportingPeriod (E0934). Currently, only one CalendarDate reference can be reported for each ReportingPeriod.</p> <p>TEA will be updating the key fields in the ReportingPeriodExt (TX) entity for the 2023-2024 school year. Going forward, the key fields will be the CalendarDate reference and the ReportingPeriod data element.</p>	04/19/24
RF Tracker	Data Promotion	<p>If the FirstName (E0703), MiddleName (E0704), or LastSurname (E0705) value for a staff or student exceeds 60 characters, it will cause errors when the data is promoted to the Core data mart.</p> <p>TEA will be updating the Core data mart to allow the FirstName, MiddleName, and LastSurname records to be up to 75 characters, which would match the Ed-Fi standard.</p>	04/19/24

API/MetaEd	Data Reporting	<p>The CourseTranscript common type does not allow for multiple course transcripts to be reported with the same CourseCode (E3071) with different course sequence codes for a student. When data is loaded with the same CourseCode, a Level 1 error is triggered.</p> <p>TEA is evaluating the data standards to determine what changes will need to be made to allow for multiple course transcripts to be loaded with the same CourseCode for a student.</p>	04/19/24
API	Data Reporting	<p>When performing a GET on the DisciplineDescriptors endpoint, a 403 "Access to the resource could not be authorized" error message is returned regardless of the claim set being used.</p>	05/13/24
ECDS	Business Validation Rules	<p>The following ECDS business validation rules are not firing due to incorrectly being associated with the Student > Enrollment subcategory:</p> <p>40110-0173 40110-0179 40110-0184 40110-0206</p> <p>TEA will be updating the configuration of these rules to the correct Category/Subcategory Student/Enrollment (School Association) for the rules to fire.</p>	05/17/24
